what is ZOZO?

Pet-friendly cleaning, hygiene and care products for homes and pets.

Our pets are our best friends and even members of our families. We go to great lengths while taking care of and cleaning them, and we want the best for their health. To this end, we take special care to ensure that the products we are using are clean. Although we are careful to choose good products, we can potentially have a negative effect on our friends' health without even realizing it. Because we can overlook the contents of the cleaning products used to clean the houses in which we live together. Most of the cleaning materials available on the market contain harmful and toxic chemicals. Unfortunately, these chemicals threaten the skin, respiratory and stomach health of our pets.

We have good news for you! The innovative venture Zozo Cares was born out of the combination of our commitment to animal health and our belief in the importance of being healthy together. Developed under the guarantee provided by Vimar Animal Health, which has proven its position in the sector with more than 25 years of knowledge, work experience and product quality, Zozo Cares products are getting ready to introduce a brand new vision to the sector.

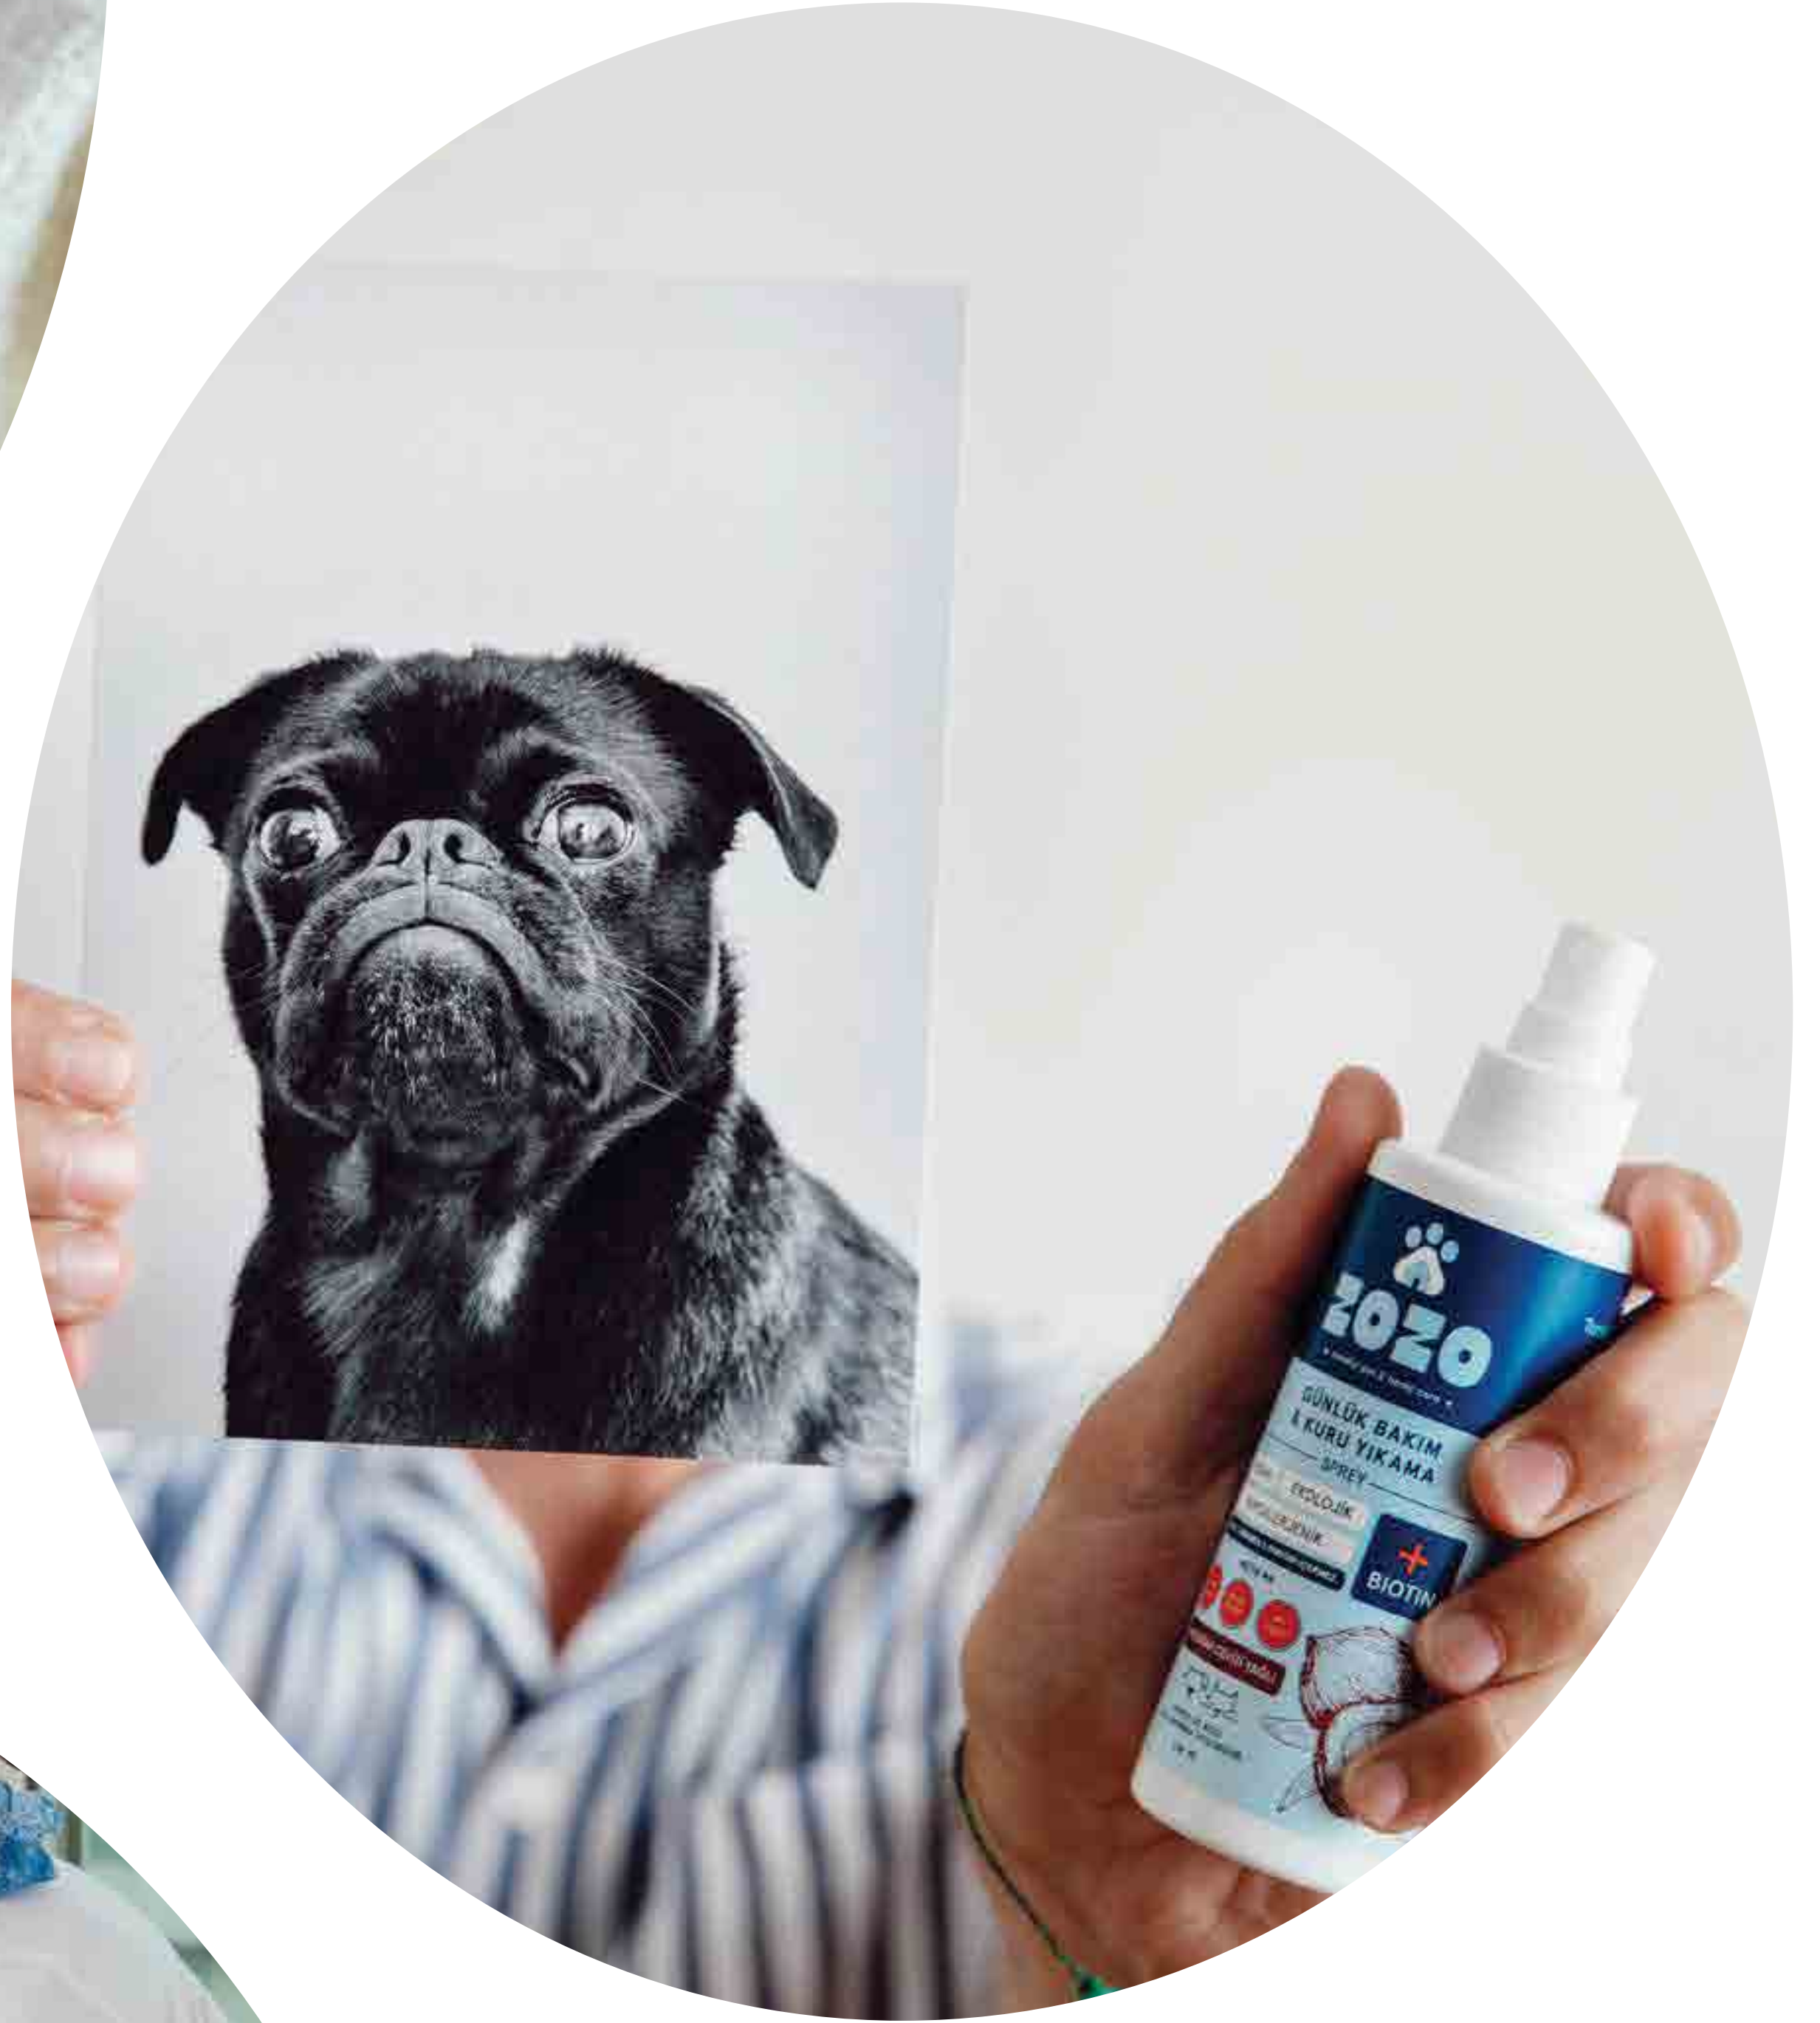

We are excited to share breakthroughs as a cleaning, care and hygiene brand looking after the health of both our pets and ourselves. All of our products in the "Home Care" and "Pet Care" categories are pet-friendly, vegan and ecological.

Thanks to our 'Home Care' products, you can ensure the hygiene of your homes with peace of mind without harming the health of yourself and your pets; With our 'Pet Care' products developed in accordance with natural and pH values, you can safely clean and care for your pets.

How happy are pet owners that they enjoy living a happy life with their healthy and well-groomed four-legged friends in their immaculate homes. If they are happy, we are happy too. As we always say;
